Healthy  
Livestock

## Introduction

# Tackling Antimicrobial Resistance through improved livestock **Health & Welfare**

Hans Spoolder  
Wageningen University and Research

Funded by:

Ministry of Science  
& Technology

Horizon2020

# Almost one year since the Kick-off in Beijing....

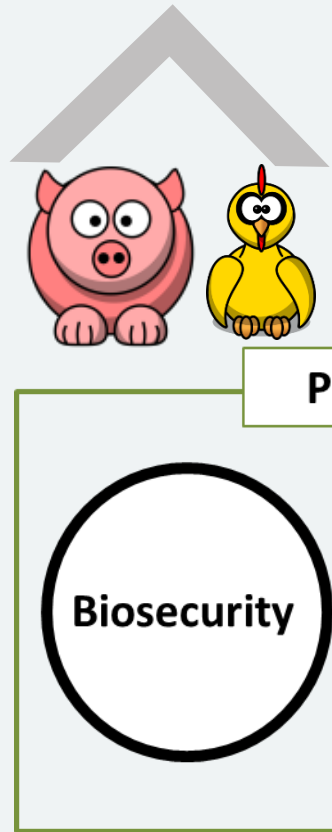

# Main objective of HealthyLivestock

**to reduce the use of antimicrobials** applied by the pig and broiler industry in China and Europe, and the subsequent residues in the food chain and the environment.....

.... **by improving on-farm animal health & welfare** without compromising productivity.

# Four HealthyLivestock strategies
